Regulatory Panel Discussion

Each agency addresses an overview of their ISR uranium permitting or licensing program:

- ✓ Requirements of their agency's ISR uranium permitting or licensing program to include application components, information required, document format, all federal & state agencies involved in the process, etc.
- ✓ Agency Review Process: Statutory timelines?, Timeline from initial letter of intent to completion of review and issuing either a State mining permit and/or Source or Radioactive Materials License (RML)
- ✓ Brief overview of estimated application and annual RML fees
- ✓ Lessons learned & pitfalls
- ✓ Q&A from audience
