Deputy General Director for Operations – JV Inkai

As Deputy General Director for Operations at JV Inkai, Kazakhstan, Mr Diracca is responsible for Operations, Projects, HSE and R&D. He has 16 years of experience in the field of uranium exploration and mining in Central Asia and Africa. He started as geologist with AREVA on the Katco project in Kazakhstan, a partnership with AREVA and Kazatomprom, involved with delineation programs and ISR pilots. He moved to Niger to compile 50 years of exploration history to raise new exploration fields, before to come back to Katco Project 3 years later. He joined for 5 years the mine management team, involved with extraction ramp-up to 4000 t. After that, Mr Diracca was based in Paris during 2 years as Project manager for developing a discovery in Mongolia. His experience about large ISR projects leads to his collaboration in the AREVA College of experts. He joined the Inkai project 4 years ago, a Joint Venture with Cameco and Kazatomprom.
